These are research notes compiled from public records to help the community and to update local officials of the Town of North Carrollton, the Town of Carrollton, and Carroll County. They are not accusations.

Readers should verify every figure independently through the official links in this report.

AT A GLANCE

Three governments, kept separate. A decade total is not stated and is not invented here. NCPDD awards are awards to NCPDD. They are not, by themselves, money belonging to a town or to the county. Amounts that this report refused to total, and combined totals that did not reproduce on the November 13, 2026, 1:40 PM ET live USAspending.gov pull, are omitted or marked as not reproduced on that pull. Figures that did reproduce were matched by federal ID (UEI). Readers should verify every figure through the official links in the cited sections.

Notice to the Mayor

Notice to the Mayor, including the September 9, 2026 correspondence and the October 9, 2026 preservation notice, is in Part 5 (North Carrollton dark blue).

This package is research notes. It is not a formal audit, not legal advice, and not accusations.

Separate documents will follow for the Town of Vaiden, the City of Winona, and McCarley, with their elected officials copied.

1. Purpose and protective notices

This document is prepared for the Mayor and Board of Aldermen of the Town of North Carrollton, the Mayor and Board of Aldermen of the Town of Carrollton, and the Board of Supervisors of Carroll County, Mississippi. Its purpose is to record and share public records research so that local officials of those governments have a single, sourced update. The Town of North Carrollton is one of the governments covered.

Protective notices

1. Rebecca Bruckner is not an attorney and is not providing legal advice.

2. BRIK Creative, LLC is not a law firm, is not a certified public accounting firm, and is not an authorized government auditor. Nothing in this document is a formal audit opinion or a legal conclusion.

3. This package is shared for information only, as research notes compiled from public records, to help the community.

4. These notes are not accusations and are not findings of wrongdoing against any person, office, town, county, or organization.

5. North Central Planning and Development District, Inc. is the subject of this public records research. It is not described here as a partner of BRIK Creative, LLC or of Rebecca Bruckner.

6. The Town of North Carrollton and the Town of Carrollton are two different municipalities, each with its own mayor and governing officials. Carroll County is a separate government. Those three are kept in separate sections and are not merged.

7. Every dollar figure and date in the tables is taken from an official source named in this report. Where a figure could not be verified, the text says Not verified or the item is omitted.

8. Readers should verify everything independently through the official links.

How labels are used

1. Verified means the item is taken from an official source that is named and linked.

2. Possibly related means an official source mentions Carroll County or North Carrollton in a way that may be relevant, with the reason and the source stated. It is not a claim that money, property, or a program belongs to the Town of North Carrollton.

3. Not verified means the item could not be confirmed from an official source at the time this report was compiled.

4. Two towns and one county, kept separate

Carrollton, Mississippi, and North Carrollton, Mississippi, are different towns. Each has its own mayor and its own town officials. Carroll County is a separate county government. This report does not treat an award to one of those recipients as an award to another.

1. The Town of North Carrollton is one of the governments covered in this report. Ken Strachan is identified as Mayor on the official town websites checked on November 13, 2026: https://www.townofnorthcarrollton.com/ and https://www.northcarrolltonms.us/.

2. The Town of Carrollton appears in federal award records under the recipient name TOWN OF CARROLLTON (UEI C2CPY693E2N1). A search under the name CITY OF CARROLLTON in the same Mississippi award set returned no rows.

3. Carroll County appears in federal award records under recipient names that include CARROLL COUNTY BOARD OF SUPERVISORS (UEI DKUKQCMYJ881) and CARROLL CO SCHOOL DISTRICT (UEI HNQXRMG4ANJ7).

4. NCPDD is a regional organization based in Winona, Mississippi (UEI NH8PJNZMKPS8). An award to NCPDD is an award to NCPDD. It is not, by itself, money belonging to the Town of North Carrollton, the Town of Carrollton, or Carroll County.

A 2020 decennial census count for the Town of North Carrollton is omitted here because it was not verified in the official source set used for this report.

invented here. Count listed: 4 verified assistance awards.

Source: USAspending.gov award pages cited in each row. The first three rows were compiled November 12, 2026 from the October 6, 2026 Carroll grants inventory, which was independently checked. FAIN DRA26MS10773 was added from a live USAspending.gov award-page GET on November 12, 2026 (ASST_NON_DRA26MS10773_517). It is a Delta Regional Authority direct payment, signed 2026-03-06, for critical street improvements to George and Morgan Streets. Outlays are printed on the source for FAIN NR244423XXXXC062 as $84,068.74. Outlays for the other three awards, including DRA26MS10773, are marked Missing on the official award records.

B. Town website statement about a 2024 CDBG grant

On November 13, 2026, the official Town of North Carrollton website included a heading "CDBG Grant 2024" and stated that a 2024 CDBG grant "will assure that our water and sewer system is enhanced and updated." No dollar amount appears in that website text. No matching CDBG award for the Town of North Carrollton appears in the USAspending inventory used for Section 5. A state grant inventory for Carroll entities was not located in that same compilation. This item is labeled Possibly related because it is the Town's own public statement, not because a matching official award record was found in that inventory.

Carroll County Board of Supervisors (Verified)

The October 6, 2026 grant-code inventory, independently checked, lists 46 verified assistance awards for CARROLL COUNTY BOARD OF SUPERVISORS (UEI DKUKQCMYJ881). That inventory covers fiscal year 2016 and later and award types 02 to 05. The full list from that inventory, with each official award link, is in the Part 3 award list below. Amounts are printed as they appear on USAspending.gov as of November 12, 2026, including three negative obligation amounts. Those negative amounts are not netted into a total in this report.

Awarding agencies in that inventory list are the Department of Agriculture (most rows, CFDA 10.923 and 10.766) and the Department of Justice (one row, FAIN 2020UMWX0427, CFDA 16.710, obligation $125,000).

A November 12, 2026 refresh of USAspending.gov award records for the same UEI adds Treasury and Delta Regional Authority awards that were outside the type 02 to 05 inventory. Those added awards include SLFRP1890, a Department of the Treasury award (CFDA 21.027) with a current obligation of $1,932,088. Period dates for SLFRP1890 are not present on the official award record and are marked Missing. The added awards are listed after the inventory rows in the Part 3 award list below.

A November 13, 2026 expansion of the countywide money picture, including year-by-year totals, both towns, the NCPDD Form 990 series back to the earliest posted filing, NCPDD federal primes and incoming subawards compared with Form 990 Line 8, and the flags found in the official records, is in Sections 9 through 14. The public records request update that originally followed this section is now Section 15.

9. Carroll County year-by-year federal money (added November 13, 2026)

This section expands Section 8. It covers federal assistance primes whose recipient is a verified Carroll County, Mississippi, organization: the county government, the Town of Carrollton, the Town of North Carrollton, the Town of Vaiden, Carroll County School District, and McCarley Water Association. Those recipients are included because they are in Carroll County. An award to one of them is not an award to another. NCPDD awards are not included in these totals. They appear in Section 12.

The live USAspending.gov spending_by_award API, checked on November 13, 2026, rejected every search whose start date was earlier than October 1, 2007 (the first day of federal fiscal year 2008). That floor applied to assistance and to contracts. A fiscal year 2008 search for assistance primes with a recipient location in Carroll

County returned no rows. The earliest verified in-county prime in this inventory was signed on August 4, 2009. Federal awards from before October 1, 2007, are Missing on this source.

Figures below are current net obligations after later downward adjustments, not a proven payment history and not a loss total. Outlays, when present, are reported expenditures on the award record. They are not Treasury disbursement dates. Where an official award record does not report outlays, the cell is marked Missing. Missing outlays do not prove nonpayment. Loans are listed by face value only and are not added into obligation totals. Pass-through subawards are kept in a separate table. Their outlays are Missing.

Source: USAspending.gov award pages and spending APIs, compiled November 13, 2026, from the live November 13 countywide pull that already covered fiscal year 2008 through the present, plus a same-day API floor check. The compiled Section 9 countywide current net was $9,416,978.19 across 100 non-loan primes, with reported outlays of $6,047,125.58 (incomplete). A live USAspending.gov re-pull on November 13, 2026, at 1:40 PM ET, did not reproduce the compiled county-government total of 66 awards and $7,108,441.27, or the compiled all-in-county total of 100 awards and

$9,416,978.19. Those compiled combined totals did not reproduce in that pull and should not be read as live USAspending totals. An earlier verification stamp (c3050f68) reproduced the 100-award total of $9,416,978.19. The Town of Carrollton current net is negative because FAIN NR194423XXXXC016 shows only downward adjustments in the transaction records. Original positive obligation actions for that award are Missing. Reported outlays on the two Carrollton awards total $111,191.74.

CARROLL COUNTY SCHOOL DISTRICT
In-county recipient, kept separate. Not an NCPDD award. Not a county-government award.

The Carroll County School District total of 17 awards and $215,400.00 includes 13 Conservation Reserve Program direct payments, CFDA 10.069, issued under the recipient name BD OF ED OF CARROLL CO. Those 13 rows total $19,550.00, with outlays Missing. They were grouped with the school district because they use the same P.O. Box 256, Carrollton, MS 38917. They are not confirmed as the district's. Those 13 rows are attributed by address, not Verified. The other four school district primes, totaling $195,850.00, are listed to CARROLL CO SCHOOL DISTRICT, UEI HNQXRMG4ANJ7.

Current net obligation by year the award was signed (compiled November 13, 2026; see the live re-pull note for combined totals)

Each column is the live net obligation of awards signed in that calendar year, after later closeout reductions. A later deobligation can place a 2025 or 2026 reduction on an award that was signed in an earlier year. Year 2008 is omitted because no in-county prime signed in fiscal year 2008 was found.

Reported outlays on those same awards, by year signed (Verified, with Missing cells)

A cell marked Missing means the official award records for that recipient and year do not report outlays, or that every award in the cell lacks an outlay figure. A cell marked partial means at least one award in the cell reports an outlay and at least one does not. The number shown in a partial cell is the sum of the reported outlays only.

Outlays and Treasury payment dates remain Missing. Most of the school total is child nutrition, Title I, ESSER, and other education programs. The official award records for Town of Vaiden FAIN CPAP000001385177 (this loan) and FAIN CPAP000001385178 (the related water grant) list the recipient county as Attala and the place of performance county as Carroll. Two other loan records in the county inventory are SBA Paycheck Protection records for private organizations, not town or county awards, and are not added into the table: Carrollton Baptist Church, FAIN 4953447201, face value $13,300.00, reported outlays $13,528.76; and Lively Stone Pentecostal Church, Vaiden zip 39176, FAIN 2607047306, face value and obligation $0.00. What did reproduce, from official spending_by_award searches (award-type groups pulled separately; start date 2007-10-01): UEI DKUKQCMYJ881, 56 assistance awards, current net $6,470,303.99, reported outlays $5,354,077.25, including SLFRP1890 $1,932,088 and four Delta Regional Authority awards combined $839,025.78. UEI GHHDG71LN7N3, recipient name CARROLL COUNTY BRD OF SUPV, 6 awards, $373,830.00, outlays Missing, kept separate. UEI ZL4GG796E9N7, Town of Vaiden, 10 assistance primes, current net $1,713,479.00, reported outlays $93,600.00, matching the compiled Vaiden prime total; a recipient-location-only filter is incomplete for that UEI. UEI HNQXRMG4ANJ7, 4 school-district primes, current net $195,850.00, reported outlays $95,850.00. A name search for BD OF ED OF CARROLL CO found 13 Conservation Reserve Program rows totaling $19,550.00, still attributed by address and not confirmed as the district's. UEI RKNJBG1D1JV7, McCarley Water Association, one prime of $60,000.00, outlays Missing, plus the already documented loan with current obligation $0.

No combined all-in-county live total is stated here, because the compiled 100-award total did not reproduce in the November 13, 2026, 1:40 PM ET pull. These live counts were matched by federal ID (UEI). A search by name or place alone may not return the same numbers. 15. Public records requests to Carroll County offices

The following items concern Carroll County offices, not the Town of North Carrollton government. They are included so that the Board has a complete public-records update. They are not accusations.

Request 010, Carroll County Chancery Clerk (Verified)

1. A request labeled REQ 010, described as office records, is recorded as sent on October 9, 2026.

2. The Clerk responded. The recorded sequence is an October 12 fax request, an October 13 county form, an October 22 estimate, and an October 23 estimate for quantity 2 in the amount of $35.60, with in-person inspection offered.

3. No production of records and no written denial are logged on the tracker used for this section.

4. This report does not describe the Clerk as having ignored the request.

Request 011, Carroll County Tax Assessor/Collector (Verified as to send date; reply status limited)

1. A request labeled REQ 011, described as car tag office records, is recorded as sent on October 9, 2026.

2. No reply from the Tax office is logged on the tracker used for this section.

3. A possible overdue status for the Tax office is not confirmed, and this report does not treat that office as overdue.

FLAGS ACROSS THESE GOVERNMENTS
Flags in this section cover the Town of North Carrollton, the Town of Carrollton, Carroll County, Vaiden, McCarley, and NCPDD, as already grouped in Section 14.

14. Flags: deobligations, low or Missing outlays, and open awards (added November 13, 2026)

These items are flags in the official money records. They are not findings of wrongdoing. A closeout deobligation, by itself, is consistent with leftover obligation being taken back after work was completed, with a scope change, or with another reason. The reason is Missing from USAspending unless a later official record supplies it.

A. Emergency Watershed Protection awards that were reduced at closeout (Verified as to the amounts)

1. County FAIN NR244423XXXXC060: originally obligated $1,123,267.50 on 2024-05-20; closeout deobligation $641,574.62 on 2025-07-29; current net and outlays $481,692.88.

2. County FAIN NR244423XXXXC059: originally $644,355.00; deobligation $293,078.63 on 2025-12-03; current net and outlays $351,276.37.

3. County FAIN NR254423XXXXC040: originally $444,262.50 on 2025-09-25; closeout $135,924.65 on 2026-10-08; current net and outlays $308,337.85. The live spending_by_award search missed this FAIN; it was recovered by a direct award-page GET.

4. Town of North Carrollton FAIN NR244423XXXXC062: originally $258,000.00; deobligation $173,931.26 on 2024-12-13; current net and outlays $84,068.74.

5. County FAINs NR244423XXXXC061, NR244423XXXXC086, NR254423XXXXC033, NR224423XXXXC050, and several Community Facilities grants also have downward adjustments.

B. Reported outlays far below the current net, or Missing after the period ended

1. County FAIN NR204423XXXXC051: current obligation $223,114.98, outlays $63,333.10, period ended 2021-07-29.

2. County FAIN NR204423XXXXC046: $218,112.05 obligated, $107,897.37 outlays, period ended 2021-08-04.

3. County FAIN NR204423XXXXC055: $129,213.00 obligated, $64,606.50 outlays, period ended 2021-08-05.

4. County FAIN NR204423XXXXC062: $136,463.25 obligated, outlays Missing, period ended 2021-02-05.

5. County FAIN NR204423XXXXC052: $89,811.02 obligated, $44,905.51 outlays, period ended 2021-03-31.

6. County FAINs CLSS00000077716 ($47,200.00) and CLSS00000077719 ($8,400.00), period ended 2025-07-14, outlays Missing.

7. The 2019 Emergency Watershed Protection awards that now show a negative current obligation (county FAINs NR194423XXXXC014, NR194423XXXXC015, NR194423XXXXC017, and Town of Carrollton FAIN NR194423XXXXC016) have positive reported outlays and no original positive obligation actions in the transaction records returned here. Original award amounts: Missing.

TOWN OF VAIDEN

In-county recipient, kept separate. Not an NCPDD award. Not a county-government award.

C. Open awards and other Missing items that remain unresolved

1. Town of Vaiden FAIN CPAP000001385178: $1,376,000.00 USDA water grant signed 2023-09-05. Period start and end are both 2023-09-05. Outlays: Missing. This is the largest in-county prime that was not in the November 12 Board report tables. A related USDA water loan, FAIN CPAP000001385177, has face value $1,124,000.00, outlays Missing. Whether those amounts were paid, and why the grant period dates are the same day, is Missing. The official USAspending.gov award records for both FAIN CPAP000001385178 and FAIN CPAP000001385177 list the recipient county as Attala and the place of performance county as Carroll. The recipient name on both records is Town of Vaiden. Those amounts stay in the Town of Vaiden totals. They are not moved into Attala County government totals.

2. Four county Delta Regional Authority awards signed 2024-12-30, combined current obligation $839,025.78, period open through 2026-12-30, outlays Missing. Already in the Part 3 award list of this report.

3. Town of North Carrollton FAIN DRA26MS10773: $156,810.00, period open through 2028-03-06, outlays Missing.

4. HUD CDBG subawards to the Town of North Carrollton, $1,135,391.00 combined, Verified as to the USAspending.gov subaward records on November 13, 2026, including the 2025 sewer subaward whose place of performance city is listed as Jackson. Outlays: Missing.

5. FAIN 047907500, CARES Act revolving loan fund, recipient identity in conflict (City of Kosciusko versus NCPDD), Winona address, Carroll County named in the seven-county service area, outlays Missing, ultimate borrowers Missing.

6. Exact Treasury payment dates for almost every award.

7. Complete pre-October 1, 2007, federal awards, which the live USAspending API will not search.

Research notes only. Not legal advice. Not accusations. Rebecca Bruckner is not an attorney. BRIK Creative, LLC is not a law firm.
Readers should verify every figure through the official links in this report.

8. Form 990 filings for FYE 1996 through FYE 2001, which were not posted on ProPublica or in reachable IRS e-file indexes.

9. A multi-year federal, state, and local split of NCPDD Line 8.

10. Legal identity of UEI KP2LWUMKN858 (CARROLL, COUNTY OF, P.O. Box 329), whose FCC E-rate records have a negative current net. A raw USAspending search on UEI GHHDG71LN7N3 also returns 2 rows under CARROLL, COUNTY OF, UEI KP2LWUMKN858 (SL-1999034894, negative $43,606.13; SL-1999035178, negative $451.44), totaling negative $44,057.57, which were not added to the $373,830.00 Board of Supervisors figure.

How to read these added sections

The six sections numbered 9 through 14 were added on November 13, 2026, to expand the countywide money picture, and the NCPDD federal money record, back to the earliest year each official source will support. They are research notes only. They are not accusations and are not findings of wrongdoing.

This report is arranged in five parts by government: Part 1, Town of North Carrollton; Part 2, Town of Carrollton; Part 3, Carroll County, including all in-county recipients kept separate; Part 4, NCPDD organization-wide; and Part 5, Notice to the Mayor, including the September 9, 2026 correspondence and the October 9, 2026 preservation notice. Section 20 is the November 13, 2026, live verification stamp. Appendix B follows that section. The Carroll County Board of Supervisors award list, previously printed as Appendix A, is in Part 3. Appendix C is the same transmitted-source appendix used in the prior Board file.

PART 4 · NCPDD ORGANIZATION-WIDE

Form 990 figures, official IRS and ProPublica links, NCPDD federal awards, and awards whose descriptions name Carroll County. An award to NCPDD is an award to NCPDD.

2. What the most recent Form 990 shows for NCPDD

North Central Planning and Development District, Inc. (NCPDD) is a nonprofit organization in Winona, Mississippi. In visible text this report refers to the organization as NCPDD and uses the phrase EIN ending 3694. Links in this PDF do not include a full employer identification number. The ProPublica citation uses an EIN-free search page.

The newest Form 990 posted on IRS.gov, as retrieved on November 13, 2026, covers the fiscal year that began October 1, 2024 and ended September 30, 2025 (FYE 2025). The officer signature date on the return is February 14, 2026. The e-file timestamp is August 14, 2026 at 2:15:43 PM Eastern Time. The official source is the IRS e-file XML in batch 2026_TEOS_XML_08A, object 202622269349302707. That XML was confirmed against the IRS 2026 e-file batch on November 13, 2026. No Form 990 for the year ending September 30, 2026 was posted on IRS.gov as of November 13, 2026.

Balance sheet at the end of FYE 2025 (Verified)

These amounts are the starting point for this report. They are taken from Part X of the official IRS e-file XML.

Item (Part X)	FYE 2025 (end)	FYE 2024 (end)
Total assets, end of year	$16,581,899	$16,021,630
Total liabilities, end of year	$2,380,009	$2,261,705
Net assets, end of year	$14,201,890	$13,759,925

Source: IRS Form 990 e-file XML, object 202622269349302707, Part X, retrieved November 13, 2026. Net assets rose $441,965, which includes a prior period adjustment of $161,069 as filed.

Revenue, expenses, and government grants (Verified)

Item	FYE 2025	FYE 2024
Government grants (Part VIII, line 1e / Line 8)	$6,522,878	$6,593,743
Total contributions (Line 8)	$6,522,878	$6,593,743
Total revenue	$6,717,566	$6,787,166

Item	FYE 2025	FYE 2024
Total expenses	$6,436,670	$6,613,695
Revenue less expenses	$280,896	$173,471
Grants and similar amounts paid out	$152,524	$109,598

Source: same official IRS XML, Parts I, VIII, and IX. The entire Line 8 amount is coded as government grants. The form does not split that amount into federal, state, and local sources.

1. Part VIII lines 1a, 1b, 1c, 1d, 1f, and 1g are zero (or not present) on the public XML for both years.

2. The accounting method stated on the return is accrual. The return states that a federal single audit was required and performed.

3. Net assets reconcile as filed: beginning $13,759,925, plus revenue less expenses $280,896, plus prior period adjustments $161,069, equals ending $14,201,890.

4. Stamped multi-year Line 8 totals were left unchanged in the research trackers: FYE 2011 through 2024 equals $88,376,391, and FYE 2016 through 2024 equals $58,883,300. An extension that adds FYE 2025, labeled separately and not a replacement of those totals, equals $94,899,269 (2011 through 2025) and $65,406,178 (2016 through 2025).

Grants NCPDD reported paying out in FYE 2025 (Verified)

Schedule I of the public FYE 2025 return lists cash grants to three recipients. None of those recipients is the Town of North Carrollton, the Town of Carrollton, or Carroll County.

Recipient as filed	Identifier as filed	Cash grant
City of Grenada, MS (government)	EIN ending 0403	$14,073
First Choice Home Care LLC, Sterling, VA	Recipient EIN is not present on the public XML	$127,399
North MS Rural Legal Service, Oxford, MS	EIN ending 1747	$10,125

Schedule I cash grants sum to $151,597. Part IX grants to domestic organizations total $152,524. The difference of $927 is reported here as filed. Purpose of grant text is not present on the public Schedule I XML.

USAspending cross-check, not a second Line 8 total (Verified)

Prime federal obligations to NCPDD (UEI NH8PJNZMKPS8) on USAspending.gov are much smaller than the government grants reported on Form 990. This difference is expected, because Line 8 can include state, local, and pass-through amounts that do not appear as federal prime awards to this UEI. The USAspending figures are not added into Line 8.

Federal fiscal year	USAspending prime obligations	Form 990 government grants	Difference
FY2024	$250,202	$6,593,743	$6,343,541
FY2025	$41,143	$6,522,878	$6,481,735

A later DRA award, DRA26MS10872, signed February 3, 2026, shows $73,620.64 in FY2026 through November 13, 2026. That award falls after the FYE 2025 period and is not on the newest Form 990.

3. Official IRS and ProPublica links for NCPDD

These links are provided so that every reader can open the same official records. IRS.gov is the primary source for the FYE 2025 return. ProPublica Nonprofit Explorer is included as a public mirror, as requested. As of November 12, 2026, ProPublica had no parsed FYE 2025 (tax period 202509) row. Its newest listed period was tax period 202409, which matches FYE 2024 (period ended September 30, 2024). That is a source lag, not a relabeling of the IRS FYE 2025 return.

6. Possibly related to North Carrollton or to Carroll County

A. NCPDD federal awards whose descriptions name Carroll County

Two verified assistance awards to NCPDD, not to the Town of North Carrollton, have award description text that names Carroll County among covered counties. That is the only reason they appear in this section. This is not a claim that the funds belong to the Town of North Carrollton or to Carroll County.

Award ID (FAIN)	Awarding agency / CFDA	Obligation as printed	Period	Source
02D31122	Environmental Protection Agency CFDA 66.818	$500,000	2022-07-01 to 2026-09-30	USAspending

ED24ATL0G0140	Department of Commerce CFDA 11.302	$210,000	2024-01-01 to 2026-12-31	USAspending

Reason for the Possibly related label: the October 6, 2026 Carroll grants inventory, independently checked, states for each of these two awards that award description text names Carroll County among covered counties. See the award page for the official description. Recipient legal name on both awards is NORTH CENTRAL PLANNING AND DEVELOPMENT DISTRICT, INC.

11. NCPDD Form 990 year by year, earliest posted filing through FYE 2025 (added November 13, 2026)

North Central Planning and Development District, Inc., is a nonprofit in Winona, Mississippi. Visible text uses EIN ending 3694. Links in this PDF do not include a full employer identification number. The ProPublica citation uses an EIN-free search page. NCPDD is the subject of this public records research. It is not described as a partner of BRIK Creative, LLC or of Rebecca Bruckner. These figures are money reported on NCPDD's own Form 990. They are not a Carroll County total and are not a Town of North Carrollton total.

The earliest Form 990 posted on the ProPublica Nonprofit Explorer organization page, rechecked on November 13, 2026, is FYE 2002 (period beginning October 1, 2001, and ending September 30, 2002). Filings for FYE 1996 through FYE 2001 are Missing. They are not listed on that ProPublica organization page, and no IRS e-file index year that was reachable on November 13, 2026, produced a pre-2002 return. The FYE 2009 and FYE 2010 returns state a year of formation of 1971, so earlier paper filings may exist. Those earlier filings were not posted in the sources searched.

IRS.gov is the primary source for FYE 2023, 2024, and 2025, which are taken from official e-file XML. FYE 2011 through FYE 2022 contributions, revenue, and expenses are taken from the ProPublica organization totals (filings with parsed data), used as a permitted mirror. FYE 2002 through FYE 2010 are taken from the official scanned Form 990 PDFs posted on ProPublica (filings without parsed totals), read from the on-disk copies and from OCR of Part I. Part VIII line 1e (government grants) is shown when it was confirmed. When only Line 8 (total contributions) was confirmed, government grants are marked Missing.

Stamped and extended Line 8 / contribution totals (Verified)

1. FYE 2002 through FYE 2010 Line 8 / predecessor contribution totals: $81,167,725.00. This matches the September 23, 2026, gap-fill re-add.
2. FYE 2011 through FYE 2024 Line 8, left unchanged from the locked re-add: $88,376,391.00.
3. FYE 2011 through FYE 2025 extension: $94,899,269.00.
4. FYE 2002 through FYE 2025, the full posted window: $176,066,994.00.

5. Total revenue, FYE 2002 through FYE 2025: $183,266,317.00.

6. Total expenses, FYE 2002 through FYE 2025: $175,228,453.00.

Line 8 is contributions in to NCPDD. The form does not split federal, state, and local sources except on a later audited statement for a single year. These sums are not a federal award total, and they are not a verified loss figure. Do not subtract Town or County awards from Line 8.

Schedule I and other grants paid to Carroll governments

The public FYE 2025 Schedule I lists cash grants to the City of Grenada, First Choice Home Care LLC, and North MS Rural Legal Service. None of those recipients is the Town of North Carrollton, the Town of Carrollton, or Carroll County. A search of the on-disk OCR for FYE 2002 through FYE 2010, and of the available later extracts, did not find a Schedule I or grants-paid listing that names the Town of North Carrollton, the Town of Carrollton, or Carroll County government as a grant recipient. Name hits for Carrollton, North Carrollton, Vaiden, and McCarley on those older returns were officer or director addresses, not grant recipients. Purpose-of-grant text is Missing on the public FYE 2025 Schedule I XML.

12. NCPDD awards that name Carroll County or its towns (added November 13, 2026)

These awards were paid to North Central Planning and Development District, Inc., UEI NH8PJNZMKPS8, in Winona, Montgomery County, except as noted for the recipient-identity conflict below. They are not awards to Carroll County government, to the Town of Carrollton, or to the Town of North Carrollton. They appear here because the official award description names Carroll County among the district's counties, or because a modification text does so. No USAspending prime to NCPDD in this inventory lists place of performance as Carrollton, North Carrollton, or Carroll County as the sole place of performance. Place of performance, when listed, is typically Winona.

1. FAIN ED24ATL0G0140 supports a comprehensive economic development strategy in the seven-county district, including Carroll County. Already noted in Section 6 of this report as possibly related, not as town funds.

2. FAIN 02D31122 is an EPA brownfields cooperative agreement for eligible assessment-related activities in Attala, Carroll, Holmes, Grenada, Leflore, Montgomery, and Yalobusha Counties. Already noted in Section 6. The November 12 report printed outlays of $441,059.91. The live figure on November 13, 2026, is $452,574.17.

3. FAIN 047907500 is a CARES Act revolving loan fund. The current award record names the recipient as the City of Kosciusko, UEI K7JKB1YNPKX4, current obligation $1,442,022.00, outlays Missing, period end 2022-07-16. Transaction search on NCPDD's UEI returns a 2020-07-16 new award of $1,562,000.00 labeled to NCPDD, plus a 2022-07-28 modification of $119,978.00 downward. The award recipient location is 28 Industrial Park Boulevard, Winona, Montgomery County, MS 38967, which matches NCPDD's previously verified address. Kosciusko is not in Montgomery County. The 2022 modification text says the award capitalizes a $1,420,000 revolving loan fund for Attala, Carroll, Grenada, Holmes, Leflore, Montgomery, and Yalobusha Counties, plus $142,000 for administration. Ultimate borrowers: Missing (0 subawards). Recipient identity is in conflict and is not resolved here. This award is not added into the NCPDD prime UEI total or into the Carroll County totals.

NCPDD's other current primes serve the same district but do not name Carroll County in the current award description. Current prime grant and other-assistance obligations to NCPDD's UEI remain $3,675,287.64 across 29 funded awards (28 grants plus the DRA award) plus one zero-dollar grant FAIN CLSS00000061984, signed July 29, 2019, reconfirmed live on November 13, 2026, with the earliest date signed November 19, 2007, at the

USAspending search floor. Outgoing subawards from those NCPDD primes: 0 rows on USAspending. No USAspending subaward from NCPDD to the Town of North Carrollton or the Town of Carrollton was found. The agency, program, and year tables for those primes, the incoming subawards, and the comparison to Form 990 Line 8 are in Section 13.

13. NCPDD federal money: primes by year and agency, incoming subawards, and how this compares to Form 990 Line 8 (added November 13, 2026)

This section is about federal money recorded for North Central Planning and Development District, Inc., UEI NH8PJNZMKPS8, in Winona, Montgomery County, Mississippi. Visible text uses EIN ending 3694. These figures are not awards to Carroll County government, to the Town of Carrollton, or to the Town of North Carrollton. NCPDD is the subject of this public records research. It is not described as a partner. The figures below were re-pulled live from USAspending.gov on November 13, 2026, at 4:06 AM ET, and they match the November 13 town and NCPDD money trace. They are current net obligations or reported subaward amounts, not a proven payment history and not a loss total.

Form 990 Line 8 is a separate series. It is contributions in to NCPDD, as reported on the organization's own returns. It is not a federal award total. A multi-year federal, state, and local split of Line 8 is Missing. Do not add the prime obligation total, the loan face values, or the incoming subaward total into Line 8. Do not subtract Town or County awards from Line 8.

A. Current prime grant and other-assistance obligations to NCPDD's UEI (Verified)

Live award search for this UEI, date signed from November 19, 2007, through February 3, 2026, found 29 funded awards (28 grants plus the DRA award) plus one zero-dollar grant FAIN CLSS00000061984, signed July 29, 2019, totaling $3,675,287.64. The zero-dollar Rural Business Development Grant is kept in the year table at $0.00. It is not counted in the award counts in the agency and program tables below. Two USDA loans are listed separately below and are not added into this obligation total. The CARES Act revolving loan fund FAIN 047907500, whose recipient identity is in conflict, is not added here. It is described in Section 12.

C. Outgoing subawards from NCPDD primes (Verified as 0 rows)

Every current NCPDD prime in this inventory, including both loans, has a subaward count of zero on the official award record. A recipient-text subaward search that returns rows for this UEI returns NCPDD as the subawardee, which are incoming subawards, not outgoing ones. Where those prime dollars went after NCPDD received them,

including vendors, towns, and Intermediary Relending Program borrowers, is Missing on USAspending. No USAspending subaward from NCPDD to the Town of North Carrollton or the Town of Carrollton was found.

D. Incoming subawards to NCPDD, NCPDD as subrecipient (Verified as reported; partial; outlays Missing)

USAspending lists 50 reported subaward actions to North Central Planning and Development District, Inc., totaling $4,894,276.09. These are federal dollars reported as reaching NCPDD through a state prime. They are not NCPDD primes, and they are not part of the $3,675,287.64 obligation total. Do not add this sum to Line 8. Subaward dates are action dates, not proven payment dates. Outlays: Missing. Coverage is incomplete. Large amounts appear in 2013 and 2014. No incoming subaward action in this pull is dated 2020, 2021, 2022, or 2023, even though later years again have rows. Treat the history as partial, not as a full record.

Prime recipient, as named on the official award	Actions	Amount as reported	Outlays
Mississippi Department of Human Services	43	$4,719,873.45	Missing
Mississippi Department of Employment Security	5	$126,917.64	Missing
Transportation , Mississippi Department of	1	$39,485.00	Missing
Mississippi Department of Transportation	1	$8,000.00	Missing
All incoming, this pull	50	$4,894,276.09	Missing

Source: USAspending.gov subaward search for this UEI as subrecipient, retrieved November 13, 2026, with prime recipient names taken from the official prime award records. The two Department of Transportation rows use the two official prime recipient spellings and are not merged. Combined, those two rows are $47,485.00. The Human Services rows are HHS aging, Social Services Block Grant, and related programs. The Employment Security rows are Department of Labor awards. Place of performance, when listed, is typically Winona, Mississippi, zip 38967. One row lists the city as WININA, which appears to be a typo for Winona. Four rows have no place of performance city.

E. How this compares to Form 990 Line 8

A figure of about $90 million has been used in earlier research notes as an approximation of NCPDD Form 990 Line 8 contributions. That reading is partly supported as an approximation of the locked Line 8 totals. It is not

Research notes only. Not legal advice. Not accusations. Rebecca Bruckner is not an attorney. BRIK Creative, LLC is not a law firm.
Readers should verify every figure through the official links in this report.

supported as a federal award total, and it is not supported as a verified loss figure.

1. Locked Line 8 re-add, FYE 2011 through FYE 2024: $88,376,391. This sits on one side of the approximate $90 million figure. FYE 2011 through FYE 2023 contribution totals were reconfirmed from the ProPublica organization API, used as a permitted Line 8 mirror, on November 13, 2026. FYE 2024 and FYE 2025 remain the locked IRS e-file XML amounts already used in Section 11 (FYE 2024 Line 8 $6,593,743; FYE 2025 Line 8 $6,522,878). Those two years were not present as parsed totals on the ProPublica endpoint at this stamp.

2. Same stack including FYE 2025: $94,899,269. This sits on the other side of the approximate $90 million figure.

3. The full posted Form 990 window in Section 11, FYE 2002 through FYE 2025, is $176,066,994 in Line 8 / contribution totals. That longer window is larger than the approximate $90 million figure and is not a substitute for it.

4. Line 8 is contributions in to NCPDD. On the recent returns the entire amount is coded as government grants. The form does not split federal, state, and local sources. A multi-year agency or federal, state, and local split is Missing.

5. The current USAspending prime obligation total of $3,675,287.64, the two loan face values, and the incoming subaward total of $4,894,276.09 do not add up to Line 8, and they are not expected to. Most contributions reported on Line 8 do not appear as federal primes to this UEI. Incoming state pass-through is one documented path. Other state and local sources are not fully listed on USAspending.

6. A separate filer or tracker figure of $88,436,471 remains NOT CONFIRMED. The primary graphic for that figure is Missing. The difference from the locked FYE 2011 through FYE 2024 total is about $60,080.

7. Line 8 is not the Town's awards. The Town of North Carrollton primes were paid to UEI YAFWC9J977L5, not through NCPDD as prime. Do not subtract those primes or the Town's HUD subawards from Line 8.

F. Items that remain Missing or unresolved in this money record

1. Exact Treasury payment dates for these NCPDD primes, loans, and incoming subawards.

2. Outlays on most older NCPDD primes, on the Delta Regional Authority award, and on both USDA loans.

3. Outgoing destinations of NCPDD prime dollars (0 USAspending subawards).

4. A complete incoming subaward history, including the gap in 2020 through 2023.

5. A multi-year federal, state, and local split of Line 8.

6. The legal recipient of FAIN 047907500 (City of Kosciusko versus NCPDD), already described in Section 12, and the ultimate borrowers of that revolving loan fund and of USDA loan FAIN BP1617066.

7. Federal awards from before October 1, 2007.

8. The primary graphic for the unconfirmed filer figure of $88,436,471.

PART 5 · NOTICE TO THE MAYOR

September 9, 2026 correspondence with Mayor Strachan, including the Mayor's later wording about the city attorney, and the October 9, 2026 preservation notice. This part records that history. It is not the purpose of the whole report.

17. Correspondence with the Mayor

This section records emails that Rebecca Bruckner sent to Mayor Ken Strachan on September 9, 2026. The source for the first message is the original email file Documents.eml, together with the iCloud Mail printout titled KEN S EMAIL WITH FILES 9-9-2026.pdf (2 pages). The source for the follow-up is the iCloud Mail printout titled KEN S EMAIL NCPDD HELP.pdf (4 pages). Those printouts are reproductions of sent mail from the same mailbox. They are not emails written by the Mayor. Full copies appear in Appendix C. A private telephone number that appeared in the closing of the original message has been redacted in the quotation below and on the appendix copies.

Working files were attached to that message, in the order they appear in Documents.eml. The files reproduced in this Board copy are listed below. Dollar figures that appear only in these working files are not copied into the verified tables in Sections 2, 5, 7, and 8 unless an official .gov or IRS source for the same figure is named in those sections.

1. WINONA-BANK-AND-NCPDD-CONNECTION.pdf (9 pages, 341,912 bytes). A working public-records file dated 8 September 2026. It describes Bank of Winona public identifiers and Treasury CDFI Fund awards as institutional receipts at the bank, and it states that those awards are not NCPDD awards. It also notes a depository overlap described in NCPDD's FY2025 audit, namely pledged collateral at Bank of Winona and at Bank of Kilmichael, and it states that no published transfer of CDFI award cash from the bank to NCPDD or to Town Hall was found in the records reviewed for that file. Bank of Winona is not described as a partner in this report. CDFI award totals from that working file are not added into any table here.

2. NCPDD-WINONA-GRANTS-PAYOUTS-2021-2026.pdf (14 pages, 544,930 bytes). A working desk file dated 8 September 2026. It separates money awarded to NCPDD, grants NCPDD reported paying on Form 990, and published awards associated with North Carrollton, Carrollton, and Carroll County. The official IRS and USAspending figures in Sections 2, 5, 7, and 8 supersede working-file figures where those official sources have been re-checked.

3. winona-ncpdd-variables-and-citations.md (10,097 bytes). A data reference compiled 8 September 2026, with a citation list. It is used here as a finding aid only. A typeset copy, with the employer identification number masked in visible text and a telephone field omitted, appears in Appendix C.

4. NCPDD-Grant-Money-Brief-North-Carrollton-Carrollton-Carroll-County.pdf (6 pages, 445,789 bytes). A working desk file dated 8 September 2026 on NCPDD Form 990 giving and on published awards described as reaching the three Carroll places, kept in separate sections. Official figures in this report supersede that file where IRS or USAspending sources have been re-checked. No original Schedule I page reviewed in that file named the Town of North Carrollton or the Town of Carrollton as a grant recipient.

B. Follow-up message, subject Suggested next steps - Re: Documents (Verified as displayed)

No separate .eml file for this follow-up is in the source set. The iCloud Mail printout KEN S EMAIL NCPDD HELP.pdf, printed on 11/12/26 at 3:20 PM from the same sent mailbox, displays the following header information.

1. From: bdesigned@mac.com.

2. To: Ken Strachan, kenstrachan74@yahoo.com.

3. Subject: Suggested next steps - Re: Documents.

4. Date as displayed on the printout: September 9, 2026 at 8:39:31 PM.

Because that mailbox displayed the first message as 11:54:03 AM, and the Date header of the first message is 11:54:03 -0400, the 8:39:31 PM display is treated here as Eastern Time, which is 7:39:31 PM Central Daylight Time. A Date header with an explicit time-zone offset was not available for the follow-up.

The opening paragraph, quoted from page 1 of that printout, reads:

Opening of the 8:39:31 PM follow-up, as displayed

I looked this up to help you. It's not bible or totally verified. You can use this when you talk to the city attorney to help you have conversations on this. It's not legal advice. It's preliminary research only to help. Your city attorney is the one that needs to drive this, keeping you looped in with every step taken.

The remainder of the follow-up offers numbered suggestions for the Mayor's consideration that week, a short list of things the author said the Mayor should not do, and a closing correction that NCPDD was a vendor and a packager, not the Town's grantor. The complete printout is in Appendix C. Those suggestions are the author's preliminary research notes. They are not legal advice, and they are not findings of wrongdoing.

C. Mayor's later texts about the city attorney (Verified as to the quoted wording; exact calendar dates Missing)

The 11:54:03 AM Eastern Daylight Time timestamp on September 9, 2026 is the Date header of the first email that Rebecca Bruckner sent to Mayor Strachan with the attached files. The iCloud printout of that sent message, KEN S EMAIL WITH FILES 9-9-2026.pdf, shows the same clock time: September 9, 2026 at 11:54:03 AM. That time is the email Date header. It is not a statement by the Mayor.

The follow-up sent the same evening, displayed as September 9, 2026 at 8:39:31 PM on KEN S EMAIL NCPDD HELP.pdf, is the email in this source set in which Rebecca Bruckner wrote that the Mayor could use the materials when talking to the city attorney, that the message is not legal advice, that the city attorney is the one who needs to drive next steps while keeping the Mayor informed, and, in the first numbered suggestion, that the Mayor should have the City Attorney put in writing what he was told, by whom if he remembers, and when.

The texts quoted below were sent after the September 9, 2026 email. The exact calendar dates of those texts are Missing. One screenshot shows the thread header "Today 12:04 AM." That header is a thread header and may not be the time of that message. The screenshots do not show a calendar date. This report does not invent those dates. The quoted wording below is taken verbatim from the screenshots in Appendix C.

1. "Ok, I'll forward them to him." This was a reply to a text that said, "The city attorney needs them next."

2. "Ok I'll check with the attorney and he can review the emails."

3. "We looking at the emails. Any news on the building?" The "Today 12:04 AM" line on that screenshot is a thread header and may not be the time of that message. The calendar date is Missing.

4. "Hey
I'm in a funeral my city clerk is going to look at it and sometime this afternoon she wants you to call her."

The record does not show that the city attorney received or read those materials.

Source: text-message screenshots uploaded November 12, 2026, in source-files/ken-texts-2026-11-12/ and KEN-TEXT-1-forward-to-attorney.png and KEN-TEXT-2-check-with-attorney.png. Appendix C reproduces only the screenshots that hold these four quotes, plus the September 9, 2026, 11:54 AM email screenshot. The clerk is named at the requester's direction. The official 2024 to 2028 Mississippi Blue Book, printed page 492, lists Municipal Clerk: Glynnis Taylor. The Town website lists Lyndera Williams as City Clerk. This report does not choose between those sources. The current clerk remains NOT VERIFIED. Blue Book source: Mississippi Secretary of State, 2024-2028 Blue Book, Municipal Government chapter, retrieved November 13, 2026, at 4:46 AM ET, from the official Municipal Government chapter PDF, listed on the official 2024-2028 Blue Book page. 18. Preservation notice sent October 9, 2026 (Verified as to the sent-mail printout)

Rebecca notes that the attached documents and correspondence sent to the Mayor were sent early on. Upon further investigation the amounts have grown. Those emails were preliminary and served as the official first notice of possible fraud.

On October 9, 2026, Rebecca Bruckner sent a preservation notice from bdesigned@mac.com to Ken Strachan, with a copy to rebecca@roachroundup.com. The iCloud Mail printout SENT-ICLOUD-MAIL-2026-11-12-upload.pdf (2 pages) displays the sent time as October 9, 2026 at 4:03:43 PM. As quoted from that October 9 email only, the subject line cites Miss. Code §§ 25-59-21 and 25-61-1, and the body cites §§ 25-59-23, 25-61-10(2), and 25-61-5(3). Those citations are presented as they appear in the sent email. They are not presented as independently verified law. The statute text was not independently verified, because the official Mississippi Code site is gated.

The notice is directed to the recipient for every public record in the recipient's custody or control, and to the Department of Archives and History for any disposal of those records. It asks the recipient to preserve all public records in the recipient's custody from January 1, 2020, through the date the recipient acknowledges the notice. A complete copy of both pages is in Appendix C. In this Board copy, a private telephone number and the entire Bcc line have been redacted with black boxes.

This compilation records the sent notice as a public-records transmittal. It is not legal advice, and it is not a finding that any record has been destroyed.
